

Ash Creek Special Service District

Sewer Cleanout Detail

Example of what to purchase

Both a lateral inspection and sewer cleanout inspection must be done by Ash Creek SSD before signatures for occupancy will be given.

Below are example photos of sewer cleanouts in landscaping, grass, gravel, etc. Every cleanout needs to have a monument ring, cover, and cast in place concrete.

If you are ready for inspection or have any questions, give us a call.
435-635-2348

PLEASE NOTE: If your inspection fails there will be a \$50 fee that will have to be paid before our inspector can return and reinspect. So, please make sure it's ready when you call it in.
